Project Details

GEMS TRADE

Gems Trade is the natural next step in the evolution of the Gems ecosystem, expanding on the foundation built by the Gems Launchpad. By introducing the \$GEMS token as a core utility and integrating it with Gems Trade, we're creating a unified hub for trading, investing, and community engagement. This power hub brings together cutting-edge features, exclusive benefits, and a thriving community to shape the future of crypto, all while strengthening the ecosystem that began with the Launchpad.

TECH

- React JS
- Recharts
- SCSS
- Ant Design

INSTANODE

Deploy nodes, validators, rollups, and appchains in minutes with transparent pricing, seamless scalability, and complete control, only with Instanodes.

TECH
